Address correspondence, new titles and returned sections to the Editor, Union List of Serials, Library of Congress, Washington, D.C.

Published by
The H. W. Wilson Company
New York, U. S. A.

Acknowledgment

To the Rockefeller Foundation, all libraries interested in this new edition will be deeply indebted and, the committee hopes, duly grateful. The editorial expense of preparing this checking edition and the cost of printing it is being met through special grants from the Foundation to the American Library Association for this purpose. The publishers and the committee anticipate that the grant from the Rockefeller Foundation will bring the price within the reach of all classes of libraries. The publishers on their part recognizing the need for this list, the very heavy expense involved, and the contributions made by the Foundation, have stated it to be their purpose to publish this second edition, as they did the first, at cost and without profit.

Introduction

With the preparation of this checking edition, the long felt need for a new edition of the Union List of Serials seems well on the way toward being satisfied.

The present list of periodical titles selected for the checking edition has been compiled from the following sources:

(1) Titles in the original union list of 1927, and its two supplements of 1931 and 1933, corrected and revised.

(2) New titles sent in by volunteers among the original subscribers, including all new titles acquired by the New York Public Library and the Library of Congress since 1933.

The amount of revision and correction necessary has proved to be beyond all preliminary calculations, and the number of new titles may be approximately half those in the original list.

Correspondence

All correspondence regarding entries, corrections, and new titles as well as the checked sections should be addressed to the Editor, *Union List of Serials*, The Library of Congress, Washington, D.C.

The compilations of holdings, like the preparation of this checking edition, will be done in the Library of Congress.

Plans for publication

Present plans call for this checking edition to be complete in nine sections, the last to be out in June 1940. By October 1940 all sections should be checked and new titles in the editor's hands. After all sections are returned, a single supplement, incorporating additions found or reported, will be issued for checking by the cooperating libraries.

Return of checked sections

A	due	F 1 1940	H-K	My 1	P-R	S 1
B-C		Mr 1	L-M	Je 1	S-T	O 1
D-G		Ap 1	N-O	Jl 1	U-Z	N 1

Suggestions for checking

It is hoped that each library will check the lists as soon as they are received, even tho they will not be called for until a later date. New titles in any one section should, however, be sent to the editorial office at once, as they will form the basis for the supplementary list to be issued at the conclusion of the Z section.

May we suggest the use of a rubber stamp, using care that capital and lower case letters are given as in the list of symbols.

Stamp the library's symbol above the page numbering and at each item checked.

Please enter checking beneath the title to which it refers, and if possible avoid using the margins. Do not write in new titles. These should be sent on 3 x 5 cards, with full bibliographical entry.

A current file is designated by +; as 1+ or 42+.

Incomplete volumes or years are shown by the use of brackets, i.e. [1-4]-[18-40]+ (or if no volume numbering is given [1896-1906]) unless the library expects to complete before the list goes to press. Minor wants may well be ignored in the more general series, but exact listing is desired for rare or unusual titles: i.e. v1 no8-14, Ap-N 1844.

Use volume numbers whenever the publication carries them, rather than years.

Assistance desired from cooperating libraries

Send new titles with complete bibliographical detail, to the editorial office as soon e checking for any one section is completed.

When an entry is incomplete, or incorrect, please give all information available to ct it: i.e. day, month, year as well as volume and number of every first and last date, series change, change of title, etc. When reporting such changes, please include this nation as a matter of routine.

The point of departure in checking the list should be the library's own catalog, rather the titles presented in the checking edition. Otherwise, rare or unusual titles will issed. The checking should be planned so as to discover all obscure and rare holdwhich may not have been found in preparing the checking edition.

With some six hundred libraries cooperating, it is earnestly requested that the schedule ted for the return of checked sections will be adhered to by each library.

Statement of classes to be omitted

A serial is defined as, "A publication issued in successive parts, usually at regular vals, and, as a rule, intended to be continued indefinitely." For the purposes of this serials include periodicals, numbered monograph series, society transactions, etc., annuals recording or summarizing the progress of research in various fields.

The following classes are specifically to be excluded: Government publications (experiodicals and monograph series issued by governments); Administrative reports of ties, universities, corporations, etc.; Almanacs; Gift books; American newspapers; ish and other foreign newspapers after 1820; Law reports and digests; Publications gricultural (and other) experiment stations; Local religious, labor and fraternal or:ations, boards of trade, chambers of commerce; National and international confer- and congresses, etc.; House organs (unless of technical or scientific value); Alumni, rgraduate and intercollegiate fraternity publications; and in general all titles having hly limited or ephemeral value.

Exceptions to the ruling and to be included: Annuals recording or summarizing the progress of research in various fields.

Explanations

A serial not published by a society or a public office is entered under the first word, not an article, of the latest form of the title.

A serial published by a society, but having a distinctive title, is entered under the title with reference from the name of the society.

The journals, transactions, proceedings, etc., of a society are entered under the first word, not an article, of the latest form of the name of the society.

Learned societies and academies of Europe, other than English, with names beginning with an adjective denoting royal privilege are entered under the first word following the adjective. These adjectives, Kaiserlich, Königlich, Reale, Imperiale, etc., are abbreviated to K., R., I., etc., and are disregarded in the arrangement.

Colleges and universities having a geographical designation are entered under the name of the city, state, or country contained in the title. Observatories, botanical, and zoological gardens, etc., not having a distinctive name, are entered under the name of the place in which they are located, unless they are affiliated with a university, in which case they are entered under the name of the university.

References have been made from earlier forms of a title or name to the latest form known, and in general wherever a reference might facilitate the use of the list. References from the name of a place to societies having their headquarters or meetings there are omitted in the checking edition. If practicable, these will be added in the final edition.
